

The Dream Institute is a safe haven and part of the number one non-profit organization in the world that addresses the human trafficking crisis, providing housing, counseling, and job training.

The Need is Growing Faster Than Our Funding.
We need \$2,500,000 annually operations and more for expansion. We are seeking corporate partners to meet this goal.

Every day, survivors reach out for safety and urgent needs. Our resources struggle to meet the rising demand. Your company's recurring generosity assures the programs continue and secures the future of our life-changing programs.

Your Recurring Corporate Donations Provides Exponential Impact

We deliver life-changing results for just \$50/day per client, and \$104/day for a woman + child. This is 5x more effective than government-funded programs that cost \$250 daily. Every dollar contributed to The Dream Institute fuels transformation, not overhead.

Providing Lasting Transformation

The FBI reports that in the USA, 460,000 children are reported missing each year. This is **FOUR** times more than any other country.

Less than 1% of trafficking victims are ever recovered. There currently exists only 1600 nationwide beds for human trafficking victims.

The Dream Institute serves women & children through extensive long-term programs with an amazing **90% completion rate.**

“Transform people’s lives by giving them a place to heal and build a solid foundation for the future.”

Human trafficking is rising across our nation, tearing at the hearts of families. Together, we can be the hands of hope in a hurting world.
